CITY OF POLK CITY **The school board discussed our next steps regarding a city required round-

approve the school’s building permit. The school board is highly
concerned about the > \$600,000 additional cost that was not previously
budgeted for. This space benefits the housing development, the school, and
the future community park and athletic field complex. The school board
will follow up with the city officials on the traffic flow time estimates, grant
options, and other examples of cost sharing for roadways for school
construction projects**
